PROFESSIONAL SUMMARY

Experienced PHP and Laravel developer with practical expertise in JavaScript, Stripe payment integration, and role-based access systems. I am looking to build my career within a collaborative engineering team by delivering reliable, high-quality web applications.

TECHNICAL SKILLS

- **Languages:** PHP, JavaScript, SQL
- **Frameworks & Libraries:** Laravel, React, jQuery, Bootstrap, AJAX, Blade
- **APIs & Integrations:** REST API, Stripe Payment API, Google OAuth
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, GitHub, Postman, VS Code
- **Soft Skills:** Problem Solving, Team Collaboration, Quick Learner

PROJECTS

Techmart — E-Commerce Platform

github.com/humayuu/Techmart

- Built a full-stack e-commerce storefront with admin panel using Laravel, Bootstrap and JavaScript — supporting full product lifecycle from listing to order fulfillment.
- Integrated Stripe payment gateway and Google OAuth login, reducing checkout friction and enabling secure third-party authentication.
- Implemented role-based access control with separate storefront and admin dashboard views, plus automated email verification for new users.

Invoice Tracking System

github.com/humayuu/invoice-tracking-system

- Built a Laravel web app to manage sales and purchase invoices with client/supplier tracking, overdue detection, and automated in-app notifications.
- Implemented PDF & Excel exports, server-side DataTables for large datasets, and module-level role-based admin permissions.
- Developed a real-time dashboard with outstanding balance summaries, invoice status tracking (pending/overdue/paid), and overdue alert system.

EDUCATION

Aptech Computer Education — 3-Year Diploma in Software Engineering	2020 – 2023
Intermediate — Karachi Board	2018
SSC — Karachi Board	2016

CERTIFICATIONS

Saylani Mass IT Training · Web & Mobile Application Development	2025 - Present
Udemy · Complete PHP & Laravel Development Bootcamp	2024
